

INSTRUCTION

Cut the images along the straight grey line only (do not cut along the dotted line)

Using cutter, make holes on the 'cut a hole' area (4 holes in total)

Apply glue on the square shape below the tail section

Paste the square shape of the eye section on top the square shape of the tail section so that the eye section is opposite the tail section

Fold along the dotted lines on all 4 sides of the overlapped square shape

Fold the upper part of the eye & tail sections, along the dotted grey lines.

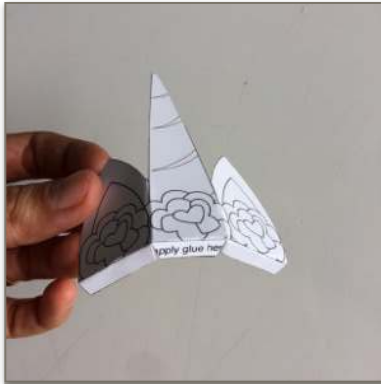

Insert the left wing into the crown

Insert the right wing into the crown

Fold the unicorn horn along the dotted grey lines and apply glue on the 'apply glue here' area

Paste the unicorn horn on the 'paste right here' area on the right wing section.

And that's it!
