How to make the Thanksgiving Cootie Catcher (Paper Fortune Teller):
1. Print and cut out the square.
2. Fold the paper corner to corner like a triangle.
3. Unfold the paper to make it flat again.
4. Fold the paper in half and unfold.
5. Rotate the paper by 90 degrees and fold it in half again.
6. Unfold the paper. Now you have 4 lines intersecting in the middle.
7. Bring each corner to the center and fold where the lines intersect.
8. Rotate your paper until all corners are folded toward the center.
9. Flip your paper and fold each corner to the center again.
10. Slide 4 fingers into the flaps to operate the cootie catcher.
